Taiyo Nippon Sanso Corporation

TNST Presented with EPISTAR's Supplier Excellence Award

Taiyo Nippon Sanso Corporation ("TNSC") hereby announces that its Taiwanese subsidiary Taiyo Nippon Sanso Taiwan, Inc. (TNST) has been presented with a Supplier Excellence Award by EPISTAR Corporation.

EPISTAR Corporation, a global LED development and production company, holds an annual Strategic Partners Technology Forum, and this year about 300 suppliers were invited to the event held at the Ambassador Hotel in Hsinchu, Taiwan, on April 18, 2019.

EPISTAR bestowed the award on five outstanding partner companies for the first time this year. TNST was one of the five companies awarded and was rated highly for its stable supply of high purity electronics specialty gases over many years. President Fan Chin-Yung of EPISTAR presented commemorative plaques to TNST and the other four companies.

Vice President Kawamoto of TNST attended a conferral ceremony held on the same day. "We, and by that, I mean the whole TNSC Group and not just TNST, have received this magnificent award because we have been recognized for our sincere response to customers' needs. I'm grateful to all those who provided us with their support," he said.
